Located in Stuttgart, **STORDIS GmbH** is one of Europe's leading companies in the field of "**Open Networking**" and specialised in developing innovative, tailor-made networking solutions. Our primary customers are renowned enterprises operating in academia and research, media and entertainment, cyber security, telecommunication, financial services, defence, and service providers.

We run first-class laboratories fully equipped with the most recent open networking technology and develop individual software and hardware solutions in our two facilities in Germany and the United Kingdom. We are highly committed to promoting the "**Open Networking Revolution**" with the help of our international memberships.

As a result of positive progress, we are expanding and we are looking for a motivated new team member in the position of:

System Administrator In-house IT (m/w/d)

As the relevant system administrator you are the primary point of contact regarding our technologically highly equipped STORDIS LAB and you are managing the organisation of our technical department. You are in charge of supervising, maintaining and improving our on-site networking infrastructure, including storage systems, server environments and the telephone switchboard.

Your upcoming tasks:

- You manage the technical inventory, plan hardware and software deployment, and determine requirements
- You configure our high-quality appliances and prepare equipment for evaluation purposes
- You are responsible for the administration, the supervision and the maintenance of our in-house IT
- You develop concepts for a continuous improvement of our in-house IT
- You organise and maintain our Microsoft-based server and client environment as well as the in-house network infrastructure
- You support troubleshooting, debugging and help preventing and eliminating malfunctions
- You set up documentations relating to infrastructure, network architecture and processes

Skills and Qualifications:

- Bachelor's degree in informatics or related, or equivalent education
- A minimum of 3 years related work experience
- A profound knowledge of Microsoft Server Environments (Server, Client, Exchange, SQL, etc.)
- Business fluent in German and English
- Strong analytical and organisational skills
- The ability to work independently and well-structured, but also the capacity for teamwork

Experience:

- Windows Server 2012 R2 and above
- GPO Policy Management
- Active Directory (preferable also AD cluster or cross replication)
- VPN
- Office 365 / Exchange / PowerShell
- SQL 2014 and above
- Backup (Local + Cloud)
- Basic Network Knowledge

What we offer:

- A permanent position in a future-oriented company
- Tasks of diverse complexity and scope in an innovative environment
- Flat hierarchies and international environment
- Excellent career building opportunities such as internal training and advanced education
- Optional flexible working hours
- A versatile workspace equipped with modern technology
- Optional activities such as barbecues and corporate events.
- A strong appreciation of your personality and reliance in your experience and competencies

Your next step:

Are you ready to shape the future of networking technology with us? Great! Please send your applications to jobs@stordis.com. Please kindly provide your earliest possible entry date and your salary expectations. Your personal information will be treated as strictly confidential.

STORDIS values equal opportunity and considers qualified applicants for employment without regard to gender, age or national origin.

Please note that due to the high volume of applicants we receive, we will not reply to every application. If you have not heard back from us within two weeks, please assume that your application has not progressed any further.
